

**REMARKS**

By the above actions, the specification, claims and abstract have all been replaced in order to place this application in better form for initial U.S. examination. In this regard, it is noted that the appended substitute specification contains no new matter and a mark-up copy of the specification showing the changes made is also appended.

Also submitted herewith is a Request for Drawing Change Approval with a new Figure 1a in which a polarization element as claimed in claim 9 of the original application and the new claim 26 is shown

Applicant now respectfully requests examination of the above-identified invention. If the Examiner has any questions or concerns regarding this application or believes that any further actions would help expedite the prosecution thereof, it is respectfully requested that the undersigned be contacted.

Respectfully submitted,

By:
